

Thinking of buying a rabbit this Christmas?

Think again. *Please!*

- You'd need to commit to 10yrs +
- You'd need at least £1000 a year - just for the basics!
- You'd need two - rabbits need a rabbit companion
- They'd both need neutering and annual vaccinations too
- They'd need a large hutch and very large secure run
- They'd need cleaning out - daily
- They'd need your time, each and every day.
