

Make Mine Chocolate!

The Make Mine Chocolate! UK organisation is about changing the way rabbits are perceived and cared for.

This independent organisation is working hard to raise awareness of welfare needs - especially in relation to the problem of impulse buying from the 'cute fluffy' factor.

In addition, extensive support material for those with rabbits, or those considering obtaining rabbits, has been produced to improve rabbit welfare and understanding of their needs, and finally break the cycle of a lack of education in rabbit care.

Education is vital for all generations, but especially the young - by encouraging the right interaction and understanding of the needs of rabbits, it is hoped rabbit welfare will improve rapidly.

Our series of fun activities are designed to help educate and make learning about rabbit welfare fun too.

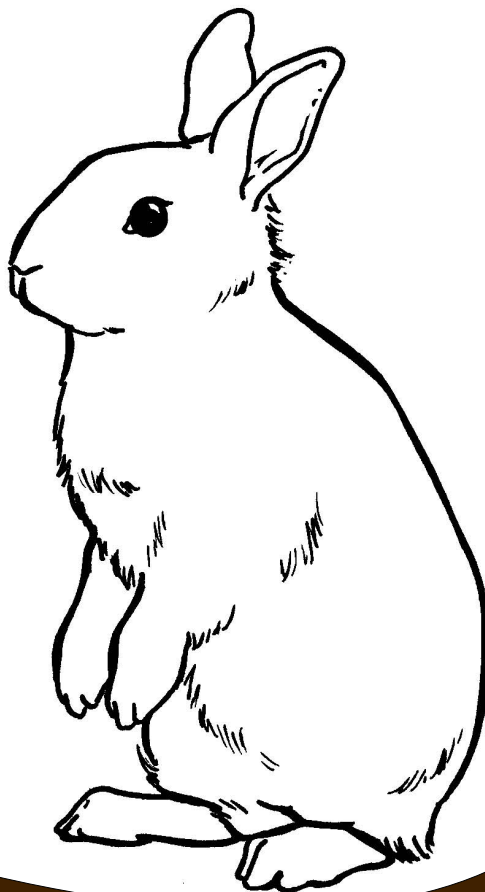

Our sincere thanks go to the Ontario Rabbit Education Organisation for their permission to use their material for the Make Mine Chocolate! UK educational work.

Colouring In Bunny

What's the colour of your favourite bunny, and why?

Send in your completed picture to us - we'd love to see it!
